

Model MTC Tubing Centralizer is used to center the tubing and provide for easier entry into an MWR Cement retainer previously set by wireline.

- Provide positive control and allows one size
- Tubing centralizer to cover a large range of casing weights.
- Most parts are common to the MSR Mechanical Setting Tool.
- Allows tubing torque to be transmitted to tools below.
- Can Run with Baker Cement Retainers.

Part Number	Casing OD	Threads Wt. (T&C)	Threads Box Up Pin Down
