

Pump Seating Nipples

Pump Seating Nipples - Pump seating nipples are furnished in 8" and 12" lengths and all standard sizes with upset or non-upset tubing threads which conform to API specifications.

Special threads may be ordered. Pump seating nipples are ordinarily furnished with tubing threads. Nipples with working barrel threads must be specified.
V Threads are not recommended for lifting.

Pump Seating Nipple				
Normal Pipe Size*	O.D.	I.D.	Length and Weight	
			8"	12"
			Weight Each	Weight Each
2" O.D. Special Thread	2.000"	1.480"	6-1/4	9
2" API Upset	2.625"	1.781"		
2" Non-Upset	2.625"	1.781"		
2" Special Thread	2.625"	1.781"	8	12
2-1/2" API Upset	3.125"	2.250"		
2-1/2" API Upset	3.125"	2.280"		
2-1/2" Non-Upset	3.125"	2.250"
