

The Quickset-D Permanent Seal Bore Production Packers are designed to be used in installations requiring equipment for high pressures, high temperatures, high volume production, injection or disposal. May also be used in installations requiring a sump packer.

- Sets securely in any hardness casing, including premium grades
- Ratchet lock rings secure dynamic setting force
- One piece packing element and metal back up rings combine for a superior seal
- Utilizes Baker style Anchor Latch, Snap Latch or Locator seal system
- Utilizes Shear Pin Setting mechanism for easy set up and secure running
- High pressure rated Temperatures to 400 F Degrees with Premium Seals
- One piece, full circle slips minimizes casing damage
- Optional bottom sub configurations to accommodate Nok-Out Plug, Seal Bore Extensions, Millout Extensions or Tubing
- Can be Wireline, Hydraulic or Coil Tubing Set
