

Elevators

The SLX elevators are designed for all size casing up to 13 3/8" with load rating from 100 to 750 ton. The shielded safety latch protects the latch from accidentally opening. To open, simply pull the safety pin, pull the latch lock handle out, and swing the elevator halves apart. Both latches operate from a single handle and automatically re-latch when the elevator door is closed.

Side Door 90° Elevator

Center Latch 18° Drill Pipe Elevator

The center latch 18 degree elevators are used for handling drill pipe with 18 degree tapered shoulders. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 2 3/8" through 6 5/8", with a capacity of 100, 150, 175, 250 and 350 tons. These Elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.

Center Latch 90° Collar Type Elevator

The center latch elevators are used for handling plain, upset tubing, drill collar, and casing with square shoulder. These elevators feature a safety double latch system to reduce accidental opening. The Center Latch Elevators come in sizes ranging from 1.05" through 8 5/8", with capacity of 35, 65, 100, 150, 175, 250 and 350 tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.

Single Joint Elevator

Single Joint elevators are light weight elevator intended to lift single joints (segments) of pipe for assembly into the drill string. The lifting weight limit varies from 5 to 8 tons depending on the size. They are manufactured and certified under API 8C.

Sucker Rod Type E Elevator

"SR" Sucker Rod Elevator is available to handle rod sizes from 5/8" through 1 1/8". The Elevator is designed for versatility in workovers and well servicing operations, with an API rated capacity of 20 Tons. The "SR" Elevator has a spring loaded latch and the rod can only be released by the operator. The bail and body is made from alloy steel and heat treated for maximum strength.

Slip Type LYT Elevator

Slip Type center latch elevators are a combination tool using 4 slips with reducing inserts that provide a secure grip on the tubing or pipe with the minimum marking of the pipe. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 1.050" through 7 5/8". The models available are LYT – 20 Tons, MYT – 40 Tons, YT and YC – 75 Tons, MYC – 125 Tons, HYT – 150 Tons, HYT – 200 Tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C

Slip Type MYT Elevator

Slip Type center latch elevators are a combination tool using 4 slips with reducing inserts that provide a secure grip on the tubing or pipe with the minimum marking of the pipe. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 1.050" through 7 5/8". The models available are LYT – 20 Tons, MYT – 40 Tons, YT and YC – 75 Tons, MYC – 125 Tons, HYT – 150 Tons, HYT – 200 Tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.

Slip Type YT Elevator

Slip Type center latch elevators are a combination tool using 4 slips with reducing inserts that provide a secure grip on the tubing or pipe with the minimum marking of the pipe. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 1.050" through 7 5/8". The models available are LYT – 20 Tons, MYT – 40 Tons, YT and YC – 75 Tons, MYC – 125 Tons, HYT – 150 Tons, HYT – 200 Tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.

Slip Type HYT Elevator

Slip Type center latch elevators are a combination tool using 4 slips with reducing inserts that provide a secure grip on the tubing or pipe with the minimum marking of the pipe. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 1.050" through 7 5/8". The models available are LYT – 20 Tons, MYT – 40 Tons, YT and YC – 75 Tons, MYC – 125 Tons, HYT – 150 Tons, HYT – 200 Tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.

Slip Type YC & MYC Elevator

Slip Type center latch elevators are a combination tool using 4 slips with reducing inserts that provide a secure grip on the tubing or pipe with the minimum marking of the pipe. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 1.050" through 7 5/8". The models available are LYT – 20 Tons, MYT – 40 Tons, YT and YC – 75 Tons, MYC – 125 Tons, HYT – 150 Tons, HYT – 200 Tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.

Slip Type HYC Elevator

Slip Type center latch elevators are a combination tool using 4 slips with reducing inserts that provide a secure grip on the tubing or pipe with the minimum marking of the pipe. These elevators feature a safety double latch system to reduce accidental opening. These Center Latch Elevators come in sizes ranging from 1.050" through 7 5/8". The models available are LYT – 20 Tons, MYT – 40 Tons, YT and YC – 75 Tons, MYC – 125 Tons, HYT – 150 Tons, HYT – 200 Tons. These elevators are made from alloy steel; load tested and are magnetic particle inspected. Certified to API 8C.
