

### Hydraulic Power Tongs

Monitor & Control Torque, Turns, & RPM during casing Makeup or Breakout.

#### Reliable

- Hardware built to handle rig floor environment / Most robust load cells / Real Time data backup through the AllTorque-Cloud\*. Fail safe hardware design with battery backup. All data is Encrypted for security and integrity
- 10+ years of development
- TLS 1.2 Security & B-Krypt Encryption
- Designed with latest available hardware
- Constant software updates to ensure bug fixes and industry requirements are always met
- Data is stored for 40 years (37 years in deep storage)
- Service Plan includes yearly load cell calibration, so no more out of date load cells

#### Easy to Use

- Clean user interface that is constantly being updated with new features and easier to use setup
- Modular hardware components that are plug and play and updated as needed
- Step By Step guides built in, with 24/7 phone & online support
- Syncing via the Cloud makes Pre & Post job tasks Easy\*
- Never lose data with Cloud online backup\*
- Real-Time monitoring jobs with an internet connection\*
- Pipe library's, Tong library's, Load Cell library's all Sync'd\*
- Control Box digital readout for tong operators
- Rig Floor Secondary Monitor for Thread Reps\*\*

\*Internet Connection is required (no minimum speed requirement)

\*\*Not included in the base systems, must be ordered separately

### Computer Torque Control
