

Description

Mechanical Cam Perforator

The mechanical perforator is designed to cut the tubing wall using purely mechanical forces, enabling communication between tubing and annulus without using explosives. Available in 2 3/8", 2 7/8", 3-1/2" & 4 1/2"

Features

Max. pipe yield strength to cut through is 80,000psi tensile strength

Multiple sizes to best fit current tubing size

Does NOT require explosives
