

ALL URETHANE

VERSI II - solid cast

6-20" (152-508mm)

The Apache Versi II is an all-urethane, durable and economical pipeline pig. Designed for versatility, it can easily be adapted for cleaning, batching, or displacement operations. The flexibility of the solid urethane shaft means even wear of the sealing elements, an inherent problem with heavy steel mandrel shafts.

Size	A	B	C	Part #
6"	9.272	15.393	6.375	73055206
8"	12.680	19.885	8.500	73055208
10"	15.035	24.364	10.625	73055210
12"	18.641	27.669	12.500	73055212
14"	21.482	30.763	13.875	73055214
16"	24.000	33.915	16.000	73055216
20"	30.068	43.065	19.875	73055220

Features:

- No metal parts to bend, corrode or damage pipe lining.
- Remove and replace only worn parts instead of entire assembly.
- Customize configurations to suit application.
- All cups and discs are manufactured from proprietary Reliathane.
- Light-weight.

Options:

- Configure with any combination of cups and discs.
- Circular flat carbon steel, stainless, or plastic brushes.
- Available in different durometers and materials.
